THE STATE OF NEW HAMPSHIRE

To the inhabitants of the Town of Warren in the County of Grafton in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Town Hall in said Warren on Tuesday, the 10th day of March next, at nine of the o'clock in the forenoon to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.
3. To hear the reports of Selectmen and other Town Officers and pass any vote relating thereto.
4. To see if the Town will vote to establish a pay scale for the Road Agent, setting minimum and maximum limits as well as any other conditions which would determine annual increments and take any vote relating thereto.
5. To raise and appropriate money to maintain highways and bridges, and take any vote relating thereto.
6. To see if the Town will vote to accept State Aid for Class IV and V roads and raise and appropriate or set aside for said purpose the sum of \$261.04 the State to contribute \$1,738.96.
7. To raise and appropriate money for Fire Department.
8. To raise and appropriate money to maintain street lights.

9. To raise and appropriate money for Town Library.

10. To raise and appropriate money for cemeteries.

11. To see if the Town will vote to raise and appropriate the sum of \$100.00 for the care of trees.

12. To raise and appropriate money for town welfare, old age assistance and soldiers' aid.

13. To raise and appropriate money for parks and playgrounds, including band concerts.

14. To see if the Town will raise and appropriate the sum of \$116.22 for the White Mountain Region Association.

15. To see if the Town will raise and appropriate the sum of \$100.00 for the benefit of the Sceva Speare Memorial Hospital.

16. To see what sum of money the Town will vote to raise and appropriate for maintenance of the Town Hall and Municipal Building.

17. To see if the Town will vote to authorize the Selectmen to make a study of minimum sanitation and fire safety standards for dwellings in the town and to report any recommendations to the 1965 town Meeting.

18. To raise and appropriate money for the maintenance of the Town Dump.

19. To see if the Town will raise and appropriate the sum of \$125.00 for the control of White Pine Blister Rust.

20. To see what sum of money the Town Hall vote to raise and appropriate to pay toward the retirement of a note at the Woodsville Savings Bank, representing money borrowed for repairs and heating system at the Town Hall.

21. To see if the Town will vote to observe Old Home Day, and raise and appropriate money for the same.

22. To see what sum of money the Town will vote to raise and appropriate for Civil Defense.

23. To see if the Town will vote to trade the Town Truck for a new one and raise and appropriate money for this purpose.

24. Shall the provisions of Chapter 117A of the Revised Laws, relative to playing beano be adopted in Town.

25. To see if the Town will vote to apply calcium chloride treatment to the unsurfaced roads in the vicinity of residences, and raise and appropriate money for the same.

26. To see if the Town will vote to discontinue maintenance of certain unused Town roads or portions of Town roads and take any vote relating thereto.

27. To see what sum of money the Town will vote to raise and appropriate toward the maintenance of the Mount Mooselaukee Health Center.

28. To see if the Town will vote to lease a portion of the Town Lot on which the Fire Station Building sets to a proposed Town Historical Corporation as a site for a Museum, and determine such conditions and reservations as may seem desirable.

29. To see if the Town will vote to grant a discount on property taxes of 1964, and determine the date and percentage of the same.

30. To see if the Town will vote to authorize the Selectmen to borrow money in anticipation of taxes.

31. To see what action the Town will take with respect to adopting a resolution concerning the Livermore Falls Project as proposed by the United States Army Corps of Engineers.

32. To transact any other business that may legally come before this meeting.

Given under our hands and seal, this 6th day of February in the year of our Lord nineteen hundred and sixty-four.

THEODORE MARSTON
WALLACE McNAMARA
KENNETH MOODY

Selectmen of Warren

REPORT OF THE CIVIL DEFENSE DIRECTOR

In October I was appointed by the Selectmen as Civil Defense Director for the Town of Warren, to complete the term of the late Roderick LaMothe.

From observations of previous records I can see my duties are many and varied.

As the name indicates, the major function of this office is to establish the many activities at the local level, that might be needed in case of any disasters, local or national.

Thus through such connections it becomes possible for the town to obtain many items that might be required for such occasions, and which could also be used on a limited basis, locally. One source of such items is through the Civil Defense office, from Government Surplus Commodities.

Our first such item is a Ford Pickup truck which is now in the local Fire Station. This truck is in very good condition, and was purchased for 50.00. This can be used in emergencies by, and with the consent of, Civil Defense authorities.

The Fire Department is also in need of a larger truck which can be used as a Tank Truck, or a combination pumper and tank truck. Two 500 gallon aluminum tanks have already been purchased for \$10. These could be used on such a truck. With a water supply such as we have in Warren, this added 1,000 gallons of water, readily available, would be a great addition.

There are many items available through these channels that could be very useful to the town and yet inexpensive.

Plans are under way for stepped-up activity in this Department and a stronger relation with the State Civil Defense office.

WALLACE WRIGHT
Civil Defense Director

FLOYD R. RAY, Fire Chief

Report of Fire Calls of Warren Volunteer Fire Company 1963

Jan.	4	Edward O'Neill—Wentworth—House
Feb.	5	Nelson Kennedy—Automobile Fire
March	2	Elmer W. Jesseman—Chimney Fire
April	4	George Roy—Wentworth—House
June	26	Town Dump
July	15	Dorothy Jones—Wentworth—House
Sept.	24	Methodist Parsonage—Garage
Oct.	1	Elmer W. Jesseman—Chimney Fire
Oct.	7-16	Forest Fire—Bald Mountain

You will note that of the nine fires listed above, three were in Wentworth. It may be wondered why the department answered fire calls in Wentworth. The answer to this is that we work very closely with that department. Wentworth, it should be noted, lost three dwellings, two of which may never be replaced.

The large fire of the year was in East Warren at the site of the old CCC camps on Bald Mountain. The ground and the woods were very dry at that time and consequently the fire burned with great intensity and most difficult to suppress. At one time there were approximately 100 men fighting this fire. Fortunately this fire burned over a considerable amount of U. S. Forest land and thereby the cost of the fire was an expense of the U. S. Forestry Service. As far as is known, the cause of the fire has not been determined, but it would seem probable that it was caused by the careless dropping of a match or cigarette by a hunter. It might be a great surprise if we knew the total cost to the Forest Service of suppressing this fire.

We are glad to report that we have added a Ford pickup truck and two 500 gallon tanks to the equipment at the fire station. These were purchased for the town through the Civil Defense Surplus Commodities Agency. We are still hoping to obtain some type of a 6x6 vehicle for the department. The worth of such a vehicle and equipment was proved at the Bald Mountain fire. Members of the Fire Department have

inspected a vehicle recently at Pease Air Force Base. However because of its size it was thought that this vehicle would not be as useful as a vehicle of smaller size and that its cost could not be justified. We hope to obtain a vehicle during the coming year which will be both practical and inexpensive.

FLOYD R. RAY, Fire Chief

Report of the Forest Fire Warden and Your

District Chief

During the past year New Hampshire faced the greatest forest fire threat to its woodlands in more than sixty years. The continued drought brought home to our citizens, as never before, the potential threat of destructive fires to their beautiful and valuable forests, homes and livelihood. In true American tradition of meeting a common threat by volunteer effort, this fire danger was minimized by active prevention, patrol and a relinquishing of personal rights for the common good. It was the greatest demonstration of public cooperation ever experienced by those responsible for local and state fire control. The ready forces of volunteer fire services kept the losses low. For their effort and public response the general fire service expresses its heartfelt thanks for a job well done.

Prevention, however, is not just an activity for the bad five years. It must be practiced until it becomes a part of our public conscience — a habit. Just plain carelessness with fire causes too many of our fires.

The following practices and suggestions will help:

1. Always have a permit for outdoor burning and burn within the terms of the permit and in a safe place. Burn late in the afternoon when the wind is down or on a rainy or damp days. Check your fire and if winds develop extinguish it promptly.
2. Carry your rubbish to the public dump — its safer. A neglected backyard incinerator causes many fires.
3. Never discard lighted cigarette or match. Make this a year round habit regardless of the safety of your surroundings.
4. Children caused fires are now a major concern. Keep matches away from them and teach them to respect fire and not make it a subject of play.

Let's all join with "Smokey the Bear" and "Keep New Hampshire Green" and growing in 1964.

Number of Fires and Burned Area in 1963

Fires: State—873; District—93; Town—0.

Area-Acres: 2117—100.79.

REPORT OF THE POLICE DEPARTMENT

First I would like to thank the people of Warren for electing me as their Chief of Police during the year 1963 it being the 200th anniversary of its founding.

Many in town have asked why outside help was employed during the Bi-Centennial. No one who was asked wanted to work, so the Selectmen's office suggested outside help be hired. The cost of policing the celebration was more than anticipated so it left a small amount available for the rest of the year.

We had our rash of breaks this past year as did other towns in the area.

One tramp taken to the County Farm.

24 miscellaneous calls.

15 breaks.

11 motor vehicle accidents.

10 Court cases.

10 Convictions.

1 Case pending in Superior Court in May.

2 Trials pending in Municipal Court as this report is being written.

15 Court appearances were made as a prosecuting officer for which the town charged mileage.

14 Court appearances as a spectator for which the town was not charged.

JOHN H. MACDONALD

Chief of Police.

SOUTH MAIN STREET WATER DISTRICT

Warrant for Annual District Meeting

To the Inhabitants of the South Main Street Water District in the Town of Warren, State of New Hampshire, qualified to vote in District Affairs:

You are hereby notified to meet at the home of Harry Gale in the said district on Friday, April 3, 1964, at 7:30 in the evening to act upon the following matters:

1. To choose a moderator for the ensuing year.
2. To choose a clerk for the ensuing year.
3. To hear the reports of the officers heretofore chosen and pass any vote relating thereto.
4. To choose a treasurer for the ensuing year.
5. To choose an auditor for the ensuing year.
6. To choose one District Commissioner for a term of three years.

Given under our hands and seal this 10th day of February in the year of our Lord, one thousand nine hundred and sixty-three.

EVERETT GOODWIN
RICHARD BURNHAM
THEODORE MARSTON

Shortly after the financial statement and report for 1962 was written the precinct experienced another costly freeze-up. This occurred in two places, one on either side of the street. On the east side of the street the line froze between the home of Nettie Brown and that of Henry Buskey. It is possible that the extreme cold plus the fact that the widened road at that point caused the frost to go much lower than usual. However after this line was thawed the Commissioners had a copper pipe welded to the main line and this pipe extends to a point just below the surface of the ground. This might make it unnecessary to do a great amount of digging in the future. On the west side of the road the situation was more serious. The water apparently froze in the pipe but may have not been the whole source of trouble. In the spring it was found that a portion of the pipe was broken and water was being lost into the ground anyway. A large valve was purchased and installed in the main pipe just below the service entrance of Lloyd Hibbard. This will enable the upper portion of this line to remain in service if anything happens in the future at the lower end. This winter a drainage line is in operation whereby water is running continuously into specially constructed dry wells at the rate of about one gallon per minute on each side of the street. This should prevent any freezing under more severe winter conditions than we are now experiencing. If necessary these two outlets could be increased in the amount of water discharged per minute, especially at night when the normal household usage is lowered. Ob-

viously our indebtedness had to be increased by \$600.00 to meet last winter's emergency costs. The water rents are now being paid regularly by everyone and it is hoped that three or four hundred dollars can be paid off on this indebtedness in 1964.

THEODORE MARSTON,
Treasurer

REPORT OF AUDITOR

I certify that I have examined the records of the Treasurer of the South Main Street Water District for the year of 1963 and find them correct.

STANLEY H. MacKENZIE,
Auditor

DEPARTMENT OF HEALTH AND WELFARE

Office of Selectmen,
Warren, N. H.

Dear Sirs:

The following is a report of activities conducted in Warren, by the New Hampshire Division of Public Health—Public Health Nursing, for the year 1963. Please have printed in your town report.

In March, April and May Sabin Polio Vaccine was given at the school for children who had missed previous series.

Sabin Type 1-9, Type 3-14; Type 2-18.

March 4, 1963 a Sterneedle Tuberculin Testing Program was conducted in the schools with the assistance of Mrs. Muriel LaMott, R. N., School Nurse. A total of 89 were tested—finding two reactors. These were followed through with chest Xrays—no active tuberculosis found.

Several from Warren attended Chest Xray Clinics in Plymouth in April and October. These clinics are conducted by the New Hampshire Tuberculosis and Health Association cooperating with the New Hampshire Division of Public Health. Written reports are sent to all attending chest Xray clinics. Arrangements have been made for some to have chest Xrays at Glencliff Sanatorium.

Due to the fact that the nearest medical care for children of Warren is Plymouth or Woodsville—about 20 miles, also that the Moosilauke Medical Center was available—a pediatric clinic was conducted at the Center on August 14th, 1963. This clinic was serviced by Dr. Abbott Winegrad of the New Hampshire Division of Public Health assisted by the Public Health Nurse and a local volunteer committee. The response was excellent and these have been continued on a monthly basis, being held on the second Wednesday of the month. Mothers have attended from Warren, Wentworth and Rumney.

Physical examinations of Babies and children were given by Dr. Winegrad and referrals for follow-up made as necessary. Immunizations and tests were also available. The following give a report of tests and immunizations given:

Physicals—102.

Sabin: T1—29; T2—25; T3—36.

Diphtheria—Tetanus—Whooping Cough: Series—37; Boosters—27.

Diphtheria—Tetanus (over 5 years)—19.

Smallpox vaccinations—29.

Urine tests: sugar—65; P. K. U.—65.

Sterneedle Tuberculin Tests—102.

These clinics are held from 10 - 3 P. M. Physical examinations by appointments. Many return for follow-up visits.

All receiving tuberculin tests and smallpox vaccinations were followed by home visits; also if physical defects were found the nurse follow-through with home visits to discuss recommendations.

The following are some of the recommendations made and carried through:

Child referred to private physician for allergy test.

3 referred to Crippled Children's Clinic at Hanover.

3 referred to Dr. Halfnagel at Hanover for further study.

2 referred to Hanover Cardiac Clinic.

1 referred to Orthodontist

2 referred for eye examinations.

3 adult reactors to TB Test followed through with chest Xrays.

Literature was available and given to mothers on various problems and health subjects. Time was taken to discuss children's behaviour problems.

We feel these clinics have been very successful and worthwhile. The mothers state they have received much benefit from them.

The nurse was assisted at these clinics by Mrs. Esther Witcher and Mrs. Ethel Graves. The time and service these ladies have given to this health project is greatly appreciated. My sincerest thanks also to the Trustees of the Moosilauke Medical Center for the use of the building. It has been an ideal set-up and we are very appreciative to have it available for Health Services.

Many home visits have been made in the community throughout the year.

Respectfully submitted,

LOIS B. REED, R. N.

Public Health Nurse, N. H. Division of Public Health

COMMENTS

The past year was high lighted by the very satisfying and memorable Bi-Centennial celebration. The work of the many committees and the generally well-planned program was a real credit to the Town of Warren. As a result of this event most of us have become more aware of the necessity of taking some real action toward providing a permanent place for the many valuable items of historic interest, which have been collected by various persons in town. It is probable that many items, now held by individuals would eventually be donated or loaned for a permanent display. Favorable action will be sought on article 28 of the Warrant as a step toward the realization of this goal.

It has been suggested that we consider closing certain unused roads or parts of roads. Many persons probably are unaware of the existence of some roads which formerly were important parts of our road system, serving the many out-lying farms which for generations were a part of Warren's economy. Today some of these roads are not in use and have naturally deteriorated but are technically subject to full maintenance. According to today's costs, such maintenance would represent an unwarranted financial burden. If the Town votes to discontinue maintenance on these roads or votes to limit such maintenance, the Selectmen and Road Agent will then have the authority and direction to support them should it become necessary to make any decisions relative to these unused roads.

Several years ago Warren citizens voted to try a system of road maintenance involving the election of a full-time road agent. Most people agree that this system has proved its worth and justified the inception of the plan. However the matter of salary has been left to a rather hit or miss program. To encourage and promote the best in road maintenance and the care of equipment, a definite salary scale should be established. This should set minimum and maximum limits and progressive annual raises. The reason for adopting a salary scale is to provide a sense of security and

an incentive to plan road work for months and even years ahead. Under such a plan a man with no experience would be expected to start at the minimum salary. In succeeding years the minimum and maximum limits could be adjusted upward, as economic conditions change, and yet maintain the pay scale. The town should give some consideration to fringe benefits for our only full time employee, such as participating health insurance and sick leave allowances.

The matter of property re-assessment in 1963 was received with a variety of reactions. The chief fault lies in the fact that increases were sudden and in many cases sharp. The goal of the Selectmen was to place fair market values on the various pieces of property. Recently the Tax Commission sent an agent to assess sample units and when these results are known, the Selectmen will know just how efficient they were and what the level of taxation is now. On the whole the changes were well accepted and the few complaints entered were made honestly and in good faith. Assessing should be a continuous process and not done at intervals of ten years or more. The Selectmen do not consider their decisions as infallible and beyond argument. Therefore they intend to receive appeals in a business-like and friendly manner. The only goal is a fair valuation for all property. Actually the valuation should be somewhere near the true market price.

During the last few months one physician has visited Warren and was favorably impressed with the professional prospects and may decide to practice here or at least, nearby. The problem of obtaining a resident physician remains serious. It appears that a gap remains between supply and demand in the medical profession. It is hoped that the voters will realize the importance of continuing financial support for the Mount Mooselauke Health Center in order to assure availability of the facilities as needs may arise.

The probability of favorable Congressional action on the proposed series of dams and storage pools in this area is high and the next few months may see the beginning of one or more of these dams in this valley.

Governor King has pledged financial investment by the State of New Hampshire in one or more local sites, developing a State Park, fishing, boating and camping. If this investment is made in the years ahead, Warren will be asked to develop some minimum zoning laws with a view to making an even more attractive valley than we have now. Such regulations would also apply in other towns in the area. Perhaps by 1965 we will have the responsibility of presenting a zoning code for consideration and action at that Town Meeting. The following paragraphs are quoted from a letter, written for this report by Mr. Donald Ferren of the Grafton County Soil Conservation District.

“Early in 1963, the “Work Plan” for the Baker River Watershed project was completed and forwarded to Washington for Congressional “construction” approval. The sponsors of the project, with the help of local people, town officials, State and Federal agencies completed these proposed plans which provide for:

(1) Accelerating the installation of land treatment measures. (2) The construction of eight single purpose floodwater retarding structures. (3) Six multiple purpose floodwater retarding structures. (4) One single purpose recreational development.

This combined program of land treatment and structural measures will have a major effect in alleviating future floodwater and sediment damages in the valley. These works of improvement will also provide opportunity for increased agricultural and industrial land use. They will provide recreational lakes for wildlife habitats, new fishing sites, and other water-based recreational development.

Four structures sites are planned for the town of Warren. Site No. 1: A multiple purpose (flood Prevention and recreation) site is located on the main branch of the Baker River about three miles northeast of Warren along highway 118.

Site No. 2: Located on Berry Brook about 1 mile north of Warren along highway 25. This structure is also planned for multiple purpose.

Site No. 3: Located at the confluence of Ore Hill Brook

and Black Brook, which is one-half mile northwest of Warren on highway 25C. This site is planned just for flood control.

Site No. 4: In the White Mountain National Forest on Patch Brook, about 1 mile east of Warren Village.

These dams will create permanent pools totaling 71 surface acres, and control approximately 75 per cent of the drainage area above Warren, thus providing this area with a high degree of flood protection."

As Warren has now begun its third century of existence should we not reflect upon our situation economically, socially, educationally and politically? Each person would do well to decide what he alone, or as a member of some group, can and must do to improve and brighten the future of Warren and the Baker Valley.

SCHOOL WARRANT

The State of New Hampshire

To the inhabitants of the School District in the Town of Warren qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the 7th day of March, 1964, at 7:30 o'clock in the afternoon to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer and fix compensation of any other officers or agents of the district.
6. To hear the reports of agents, auditors, committees or officers heretofore chosen. and pass any vote relating thereto.
7. To choose agents, auditors, and committees in relation to any subject embraced in this warrant.
8. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state foundation aid fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.
9. To see if the district will vote to raise and appropriate the sum of \$1,100.00 for the support of the school lunch program for the ensuing year.

10. To see if the district will vote to raise and appropriate the sum of \$150.00 for the support of a dental clinic for the ensuing year.

11. To see if the district will vote to raise and appropriate the sum of \$100.00 for the support of a physical examination program for grades 1, 4, and 7.

12. To see what sum of money the district will vote to raise and appropriate for the installation of television equipment in the school building.

13. To see if the district will vote to authorize the School Board to close school on Veterans Day (November 11).

14. To transact any other business that may legally come before said meeting.

Given under our hands at said Warren this 6th day of January, 1964.

A true copy of Warrant—Attest:

MARION WHITCHER
RONALD GRAVES
HAZEL BEMIS

School Board of Warren

(This is a temporary Warrant. Articles may be added until February 13.)

Withholding Tax	561.60
Retirement	—
O. A. S. I.	129.60
 Helen K. Evans, Grades 3 and 4	 2,904.96
Withholding Tax	561.60
Retirement	153.84
O. A. S. I.	129.60
 Mildred C. Kern, Grades 5 and 6	 2,911.44
Withholding Tax	561.60
Retirement	147.36
O. A. S. I.	129.60
 Raymond S. Burton, Grades 7 and 8	 3,128.56
Withholding Tax	597.60
Retirement	125.52
O. A. S. I.	138.32
 Substitutes	 98.00
 Charlotte Wilson, Music Supervisor	 708.86

OFFICERS' SALARIES:

Moderator, Theodore Marston	5.00
Clerk, John Nicol	5.00
Auditor, Bernice Lamothe	5.00
Treasurer, Marcia Anderson	60.00

SCHOOL BOARD:

Marion Whitcher	60.00
Ralph White	60.00
Cora Haines, Bookkeeper	100.00
Child Census, Margaret Whitcher	10.00

JANITOR:

Edward Whitcher

\$1,597.44

Tax 202.80

1,800.24

TRANSPORTATION:

Elementary, George Hight

\$1,170.00

William Whitcher 2,566.00

\$3,736.00

REPORT OF THE SCHOOL SUPERINTENDENT

To the School Board and Citizens of the Warren School District:

I submit, herewith, my seventeenth annual report as Superintendent of Schools.

1962-1963

Number of pupils registered during year	99
Average membership	90.4
Percent of attendance	95.6
Number of pupils neither absent or tardy	5
Non-resident pupils	2
Number of children, ages 6-14, not attending any school	0
Number of pupils whose tuition was paid by the district: Secondary	36
Number of pupils transported at district expense: Elementary	40

Roll of Honor For Perfect Attendance For Full Year

Libby, Grover, Grade 2	Shortt, Bonnie, Grade 4
Wright, Patricia, Grade 3	LaBrie, Anne, Grade 6
Ramsay, Ronald, Grade 4	

Roll of Honor For Perfect Attendance

Alessandrini, Bernardino	Holt, Valerie
Ball, Donald	Marston, Pauline
Ball, Wanda	Moody, Stephen
Bancroft, Earl	Ramsay, Linda
Beamis, Gayle	Stevens, Marlene
Belyea, Philip	Whitcher, David
Bushaw, Jesse, Jr.	Wright, Lewis
Currier, Bernadette	Wright, Donald

Enrollment by Grades

Grades	1	2	3	4	5	6	7	8	Total
Warren Village	12	14	12	12	7	11	15	16	99

1963-1964

The teaching staff had only one change in personnel as school opened in September. Mrs. Kern, who resigned in June, was replaced by Mr. John Carroll of Plymouth.

Mr. Carroll is a resident of Plymouth, a graduate of Plymouth State College, B. Ed., Class of 1962, and is continuing his graduate work. He previously taught at Franklin High School.

The number of high school pupils enrolled in September of 1963 was 43, an increase of seven over the number in 1962. This enrollment continues to increase. Only eight high school pupils are in grade XII, to graduate in June 1964, and we have thirteen to enter grade IX in September 1964. This reflects a budget increase in tuition costs from \$13,591.00 in 1962 to \$19,693.00 in 1963, and an estimated cost in 1964 to \$21,120.00. Although this hurts the pocketbook, yet it is a compliment to the teachers and parents who cause the pupils to be, not only well-prepared, but also interested in attending secondary school.

In spite of this increase in tuition costs, and in an increase of teacher's salaries, which are approaching those of a beginning teacher without experience, yet are still far below the average salary of teachers of equal experience, the actual impact on the taxpayer is less than it was two years ago. In 1962, the taxpayer was assessed \$35,462.99; in 1963, \$34,641.90; and, in 1964, the estimated tax assessment for schools is \$33,656.67, due primarily to increased State Aid.

In the realm of education, it would seem that more and more parental responsibilities are being shunted onto the school system; and to the detriment of the child's well being.

For nearly 300 years we had a society and way of life that required every growing youngster to carry in fire wood when he was about age six. He learned to plow at 12 and become a "hand" at 16. But modern life has changed all that. The greatest resource available to today's youth is time. Their most perplexing problem is finding something useful to do with it.

Since the time when about 90 percent of our people worked the land and it took about three individuals in agriculture to sustain one on the city street, we have moved to where one farm worker can now supply 23 others. The economists predict that this proportion is sure to go to one to 30 and eventually, perhaps, to where one individual on the land can maintain 40 or 50 individuals living in town.

Because much of the change in agriculture and our way of living has been recent, a majority of our adult population can remember a growing up experience when there was something useful to do—the very doing of which was of significance and made a difference to the other members of the family group. It may or may not have been carrying in the wood or learning to plow. It might have been white-washing the fence, gathering eggs, pumping water, closing in the chickens at night, tending a vegetable garden, or some other important and necessary chore. But in that earlier period children were genuinely an economic asset. Their efforts were purposeful and needed.

At home, in school, and in community activities, children learn through participation. They learn to accept responsibility by being given responsibilities. They learn correct procedures by making occasional mistakes. Skills develop through practice.

In the process by which young people grow into mature citizens, idleness is not a substitute for work experiences geared to advancing maturity. The opportunities available to youth in generations past are now missing. For it is pretty hard for a youth to learn to plow a city street.

Unfortunately, only a small minority of rural youth actually live on productive farms.

They have moved with high hopes of finding some share of the "good life". Taking their disadvantages with them—poverty, a low level of educational background, a lack of employable skills — they have not generally found it.

It is frustrating, perhaps even worse, for our youth who find themselves in a society that doesn't have anything for them to do.

Having a generation of perhaps the healthiest and most energetic youth the world has ever known with not much to do with their time is a serious social problem. Its seriousness is not only the idleness of youth but the fact that they are deprived of maturing influences that constructive work experiences give.

So far out society has either failed to recognize this problem or has simply turned its back on it.

Parents need to understand the significance of work experiences and must try to find as many outlets for their children as possible.

Children learn by the tasks they do. They have little opportunity to learn when everything is done for them, when they are shielded from responsibility. From an early age with each child, parents must be alert to the tasks and chores and routine jobs that can be assigned and supervised.

The leaders of business and labor need to accept a share of responsibility for furnishing work opportunities to youth.

It is not suggested here that you be put in competition with adults for jobs. They are not ready to accept such responsibility.

Opportunities for work experiences for youth and need to be created. Our modern society is something of a unique experiment. Only recently have we become a nation more urban than rural.

But regardless of how the job is attacked, at what level or by which agency, many opportunities for youth will need to be created.

One of the basic social problems in America is the fact that it **now has on its hands**, not around the bend, a generation of youth with nothing to do but go to school long after our colonial, agricultural concept of a school program should have been taken out of the picture. For there isn't any way to take the meager scrap of time now allocated to education and do for this country what has to be done if it is to survive and prosper during the last half of the Twentieth Century.

The efficiency of the professional staff, the interest and industriousness of the members of the School Board, and the support of the citizens is gratefully acknowledged.

The report of Mrs. Muriel LaMott, R. N., follows.

Respectfully submitted

PHIL A. BENNETT

Superintendent of Schools

Warren, N. H., January 6, 1964

REPORT OF SCHOOL NURSE

Number of pupils examined:	96
Number of school visits	23
Number of home visits	63

Correction of Defects:

Teeth	62
Vision	12
Successfully vaccinated	11

Clinics:

1/25/63—2 pupils attended the Crippled Children's Clinic at Hanover.

5/17/63—1 pupil tested at the Pediatric Diagnostic Clinic at Laconia.

6/17/63—1 pupil tested at the Pediatric Diagnostic Clinic at Littleton.

March 4 and March 12, 1963—84 pupils and 5 adults had Heaf Tbc. skin tests.

Dr. Jamback examined all pupils at the school on October 3, 1962. The total number examined at the school was 92. Total number treated at the dental clinic was 39. Persons furnishing transportation to the dental clinic include the following: Mrs. Shortt, Mrs. Vincelette, Mr. Currier, Mrs. Heath, Mrs. Foote, Mrs. Bancroft; Mrs. Margaret Witcher, Mr. Marston, Mrs. Bushaw, and Mrs. Hazel Bemis. I want to thank each one who donated time and automobiles to make this dental clinic possible. I want to thank Mrs. Pike, also, for arranging transportation for this clinic.

Saturday, January 12, 1963, Dr. Deely examined 28 children in grades 1, 4 and 7. In spite of the cold, stormy weather, there was 100 percent attendance. I think this is remarkable considering the weather and the fact that the examinations were held on a Saturday.

During the summer of 1962, the Sabin Oral Polio vaccine became available. The Department of Health conducted a series of three clinics with local committees handling the pre-registration and records. In March, April, and May, 1963, make-up clinics were held and anyone who had missed them in the summer had an opportunity to get the types they had not had.

I wish to thank Mr. Bennett, Mr. Burton and his staff, the parents and pupils for their continued interest in the school health program.

Respectfully submitted,

MURIEL LAMOTT, R. N.
